

LEAK REPAIR

SERVICE DESCRIPTION

D. C. Taylor Co. Service Technicians will perform the following leak inspection and repair activities.

Identify Leak

Meet with the customer's representative to identify leak location.

Locate Source

Inspect for the leak source.

Repair Defect

Repair leak source according to National Roofing Contractors Association Repair Manual.

Review Results

Review repairs with customer.

Water Test

If previous methods do not identify water entry points, a water test may be required. (Owner will be contacted prior to implementing water testing.)

DELIVERABLES

Work Order Photo Album: Report contains before and after photos of the leak inspection and repair activities.

WHEN TO USE

- A roof leak is impacting production, people or property within your facility.
